Price guide 2012

The purpose of this guide is to give you a general idea of costs for the services, acts, soloists.....on our website.

Each function is unique and this can affect prices.

To allow us to provide an accurate guide especially where bands are involved an average price based on the last 12 months is given.

We hope that this is of help when budgeting for your entertainment, please contact us for acts availability and cost.

Prices for functions in the ROI normally attract an extra fee for travel etc.
